

Tempcon at BigMint: Growing with Bengal's Steel Sector

At **BigMint**, Tempcon connected with stakeholders and industry professionals at a time when West Bengal's steel sector is entering a significant phase of **investment, expansion, and modernization**.

Industrial hubs across **Durgapur, Burnpur, Asansol, Bankura, Purulia and Kharagpur** are witnessing renewed momentum, strengthening Bengal's position in India's growing steel and manufacturing ecosystem.

Major Investments Driving Growth

Key planned and ongoing investments include:

- **Shyam Steel Group** — around ₹15,000 crore
- **Shyam Metaliks** — approximately ₹20,000 crore
- **Amit Metaliks** — around ₹4,000 crore at Raghunathpur
- **Rashmi Group** — around ₹35,000 crore across steel, power and mining
- **Jindal (India)** — ₹1,500 crore expansion at Howrah
- **SAIL Durgapur & IISCO Burnpur** — continuing modernization initiatives

Growth Creates New Infrastructure Needs

New plants, capacity expansions, and modernization projects create opportunities across the industrial ecosystem, including:

Process Cooling & Temperature Control | Industrial HVAC | Water & Heat Management | Energy Efficiency | Plant Safety & Reliability | Maintenance Support

Reliable cooling and thermal management are essential for controlling critical processes, protecting equipment and ensuring efficient plant operations.

Tempcon at BigMint

For Tempcon, BigMint was an opportunity to understand emerging industry requirements, exchange insights and highlight the growing importance of dependable industrial cooling solutions.

As Bengal's steel ecosystem expands, the demand for efficient **process cooling, industrial air-conditioning and precision temperature control** will grow alongside it.

Supporting Bengal's Next Industrial Chapter

From **industrial chillers and air-conditioning systems to process cooling and precision temperature control**, Tempcon is committed to supporting demanding steel and manufacturing environments with reliable thermal management solutions.

Connecting with Industry. Understanding Tomorrow's Requirements. Supporting Bengal's Industrial Growth.

Tempcon — The Cooling People

Reliable Industrial Cooling Solutions for a Growing Steel & Manufacturing Ecosystem.
